

LIBRAWEIGHBRIDGES

PORTAWEIGH

No Foundations Required.

The Portaweigh, portable weighbridge can be installed without civil works using the optional sub-bases, thus saving you thousands of pounds in expensive foundations. The Portaweigh can be installed on top of any pre-existing hard surface. The Portaweigh's ramps are partially built in to the weighbridge deck allowing for much smaller base ramps at just 1.5m this is a great advantage where space saving is an issue.

The Portaweigh can also be used as a standard permanent weighbridge, plus utilising the optional sub-bases you can still save on expensive foundations. The Portaweigh weighbridge comes with a 5 year Guarantee and can be installed and in operation in just 4 hours. The Portaweigh's ease of installation and removal also makes hiring them a cost effective alternative to buying.

15m Portaweigh

8m Compact Portaweigh

18m Portaweigh

SMALL FOOTPRINT

Steel ramps partially built into the deck allow for smaller base ramps, leaving more yard area free.

MODULAR DESIGN

Modular design allows for easy customization of length as well as load capacity, easy transportation and shipping.

5 YEAR GUARANTEE

Libra weighbridges are built to last, our unrivaled warranties are testament to the fact.

FULLY CERTIFIED

EU certification for trade use.

Manufactured to the highest standards in Sheffield, UK.

Sheffield Chamber
of Commerce and Industry

Hire

Portaweigh's ease of installation and removal and eliminating the need of expensive foundations makes hiring them a cost effective alternative to buying.
