Auto and Manual Weighing :

The screenshot shows the 'Weighbridge 1' window with the following details:

- Registration:** Gross Wt. 0 Kg. A 'Weight' button is visible.
- Operator:** JOHN
- Registration:** BV51GDD
- Haulier:** FRANKLIN
- Driver:** (empty)
- Order No:** (empty)
- Weighing Product Out:**
 - Customer: Franklin Limited
 - Destination: (empty)
 - Waste Carrier Licence: (empty)
 - Source: (empty)
 - Product Code: (empty)
 - Description: (empty)
 - Price Per Tonne: (empty)
 - Comments: (empty)
 - No of Axles: 0
 - Delivery Zone: (empty)
- Buttons:** Cancel (red), Accept (green), Manual (yellow).

Most weighings will be carried out on Auto. When the lorry is on the bridge click in the 1st weighing box, this brings up a registration box, put in the vehicles registration, if it is in the database already the haulier will be filled in automatically if not then it will ask you if you want to add to database click on Yes and carry on with weighing. Enter product and any other information you want to then press the green Accept button and the weighing will then be registered and stored ready for the 2nd weighing. The same applies to a manual weighing the difference being you have to manually enter the weight that is showing on the indicator, to do this click on the yellow Manual button and then the grey weight button and a Manual Weight Entry box appears, enter the weight being shown on the indicator and press the accept button and then click on the green Accept button the 1st weighing once again is stored awaiting 2nd weighing. A box confirming this appears on the screen click OK if you wish to store the data.

If a tare weight has been allocated to a vehicle registration in the Vehicle Database there is no need to do a 1st Weighing,

The screenshot shows the 'Weighbridge 1' window with the following details:

- Registration:** Gross Wt. 44440 Kg. A 'Weight' button is visible.
- Operator:** JOHN
- Registration:** BV51GDD
- Haulier:** FRANKLIN
- Driver:** (empty)
- Order No:** (empty)
- Weighing Product Out:**
 - Customer: Franklin Limited
 - Destination: Aveley
 - Waste Carrier Licence: (empty)
 - Source: Brentwood
 - Product Code: ASH
 - Description: IBA Aggregate
 - Price Per Tonne: 0
 - Comments: (empty)
 - No of Axles: 0
 - Delivery Zone: (empty)
- Buttons:** Cancel (red), Accept (green), Auto (yellow).

The dialog box is titled 'Easyweigh System' and contains the following text:

First weighting has been Completed

Buttons: Cancel, OK

Weighbridge ticket; these can be either printed out on A4 or A5 single, double or three ply paper or onto pre printed paper.
